FOR CONGRESS : Rob't L. Taylor, OF WASHINGTON COUNTY.

TO WHOM IT MAY CONCERN MR. J. S. WARNER is authorized to solicit patronage, make contracts for job work and advertising, and collect and receipt for all dues to THE MOR-RISTOWN GAZETTE. It is absolutely necessary for ALL IN ARREARS to be prepared to meet our agent and pay at least a 'portion of their indebtedness. The amount of our outstanding accounts is too large remain longer unsettled. It must be fixed by payment, note or judgment. If it was not absolutely necessary we would not be so emphatic.

ROBERT L. TAYLOR, ESQ. The nomination of this gentleman by the Democratic Convention at Jonesboro', last Wednesday, as the Democratic standard bearer in the Congressional race, was a happy and fortunate result, bringing together as it will all the disturbed elements of the party, upon a platform which cannot fail to satisfy all men who have the welfare of the party and the best interests of the people at heart. Mr. Taylor is a son of Hon. N. G. Taylor, and a nephew of the late Hon. Landon C. Haynes. He is a lawyer by profession, and inherits much of the force and eloquence of his distinguished father. With all classes, old and young, he is a popular favorite. Personally he is above reproach, and has no political sins to answer for, as others doubtless would have had had they been the nominee of the convention. Upon the stump we predict he will make himself felt, and prove fully able to refute all charges that may be brought up by our common enemy, or the enemies of true government within out own household, if there be any. With the candidate the representatives of the people selected at Jonesboro', as the Democratic candidate for Congress, the people of the First Congressional Dist ict can but feel happily satisfied. Confidence and harmony are restored and pervades the masses. We believe it.

CIRCUIT COURT.

We know it. HURRAH FOR TAYLOR!

The August term of the Circuit Court of Hamblen county, and its doings, furnish some food for reflection. Perhaps as much as one entire day of the term was given to civil business, and was sufficient to dispose of the civil docket. One day was perhaps as much time as was devoted to the trial of white persons for crimes and misdemeanors. The balance of a busy week was devoted to the trial of colored persons -four of whom were tried for felonfes-leaving one charged with infanticide whose case was not reached. These four cases have cost the State perhaps much more than four hundred dollars. In three of the cases the parties were defended by counsel assigned by the court, the defen dants being utterly impecunious. A large portion of the last term of the court was occupied in the same way.

is left over for want of time, the defendant being a colored woman. How many more of the same sort originated in the grand jury room during last week, it is not for us now to say. We remark, in passing, that no white citizen of Hamblen was put on trial for any higher offense than a misdemeanor. It thus appears that so far as the white citizens of the county are concerned, they did not fice, and in the interest of the State?) at fornish work for the court for more than two or three days. ments the Democratic nominee for Governor of Tennessee. "Hon. Albert S. Marks, the Democratic nominee for Governor of Tennessee, is one of the Chief Executive."

AN ERROR CORRECTED.

We notice that the proceedings of the Congressional Convention held at Jonesboro', on the 21st instant, as published, make it appear that when nominations were declared in Farland with others was placed in nomination. This is a mistake. Mr. McFarland was not a candidate, and had positively instructed the deletion, and therefore he was not put in nomination. After some twenty ineffectual ballots had been had Mr McFarland was voted for and received a majority of the votes of the convention. Had his friends been less restricted in their action, the balloting would have been further prohad not followed.

THE YELLOW FEVER.

The latest reports from the scourge stricken cities of New Orleans, Vicksburg, Memphis and Grenada leave little hope for the speedy abatement of the disease. In New reported Saturday morning, but it s claimed that the percentage of mortality is only 25 per cent. Fifty uew cases and 20 deaths are reported the 24th in Vicksburg. In that city the disease is spreading and now no part of the city is free from the disease. The destitution and suffering is very great. The situation at Grenada, Miss., is heart rending in the extreme. At Canton out of a population of 3500, the town is depopulated, and the negroes are falling like sheep. At New Orleans, on the 24th, there were one hundred and ninety-three new cases, and forty-two deaths. At Memphis, one hundred new cases Contributions for the sufferers in the different localities are pouring in from all quarters of the country.

If the money forced from the people was expended on the road-one tenth of it-we would have a respectable thoroughfare of travel. W hat becomes of it? The militia of Grainger county work the road for nothing. As above stated, another felony and the people of Claiborne county pay the Commissioners for the honor (I reckon) of holding their offices. On this platform was placed one of the strongest men in the State-one who brings to the support of his party a clear and vigorous mind, a character unsullied by a single vice, and an address so winning and prepossessing, that, had he no other attractive quality, this would alone suffice to give him a strong hold on the affections of the people. Ready in debate and fully equipped for all the exigencies of political controversy, he will prove an adversary too formidable for the opposition to combat. A LADY ELOCUTIONIST. Miss V. D. Bowers, a native of Virgi nia but who has for the past six or eight years been connected with flourishing female schools in Memphis and other cities of this State, gave a public Reading to the citizens of Morristown last Friday evening in the Methodist church and was greeted by an intelligent and appreciative audience. She delighted all who heard her. Old and young left the room at the conclusion of the entertainment feeling that they were more than paid for the small cost in spending an exceedingly agreeable evening listening to the trained, musical voice of a refined, cultivated, modest lady. Her selections were excellent and evidently chosen to portray humanity in its vari ous phases of terror and bravery, grief and humor. Her first selection was "Kentucky Belle," where the terror of the way dweller and her littler ones are admirably pictured. Then in "How we Hunted a Mouse," was terror of anoter sort so ridiculously portrayed to na ture as to call forth peals of laughter from the sedatest of the audience.
